Name: Neha Sharma

Email: neha.sharma.cybersec@example.com

Phone: +91-9988776655

LinkedIn: linkedin.com/in/nehasharma-secure

GitHub: github.com/nehacyber

Objective:

To leverage my skills in network security and ethical hacking to help organizations identify vulnerabilities and enhance their cybersecurity posture. Passionate about penetration testing and secure system design.

Skills:

- Network Security, Firewalls

- Vulnerability Assessment, Penetration Testing

- SIEM Tools (Splunk, Wireshark)

- Python, Bash Scripting

- Security Auditing, Risk Management

Projects:

1. Penetration Testing on E-commerce App

Performed black-box and white-box testing, documented 10+ vulnerabilities. Created mitigation strategies and implemented patch solutions.

2. Firewall Setup and Monitoring

Configured firewall rules and conducted traffic monitoring using Wireshark. Automated logs using a Bash script for suspicious activity detection.

Experience:

Cybersecurity Intern – SecureNet Solutions, Hyderabad

Jan 2024 – Jun 2024

- Conducted vulnerability scans and security audits.

- Assisted in creating risk assessment reports for clients.

- Automated alerts for intrusion attempts using Python.

Certifications:

- CEH (Certified Ethical Hacker) – EC-Council

- CompTIA Security+

- Introduction to Cyber Security – Cisco Networking Academy

Education:

B.Tech in Information Security

VIT University, Vellore | 2021–2025
